

## PANArt–Cleaning Spray

### Description

---

The PANArt–HANG & PANG–Cleaning Spray is a waterbased and oil free, mild alkaline cleaner which provides at the same time a very good corrosion protection.

*– Free of oil, solvents and silicon –*

### Technical Data

---

Colour	Light yellow
Density at 20°C	1,02 g/ml
Viscosity at 40°C	1,0 cSt
pH value	9,2
Flash Point	none

### Application

---

PANArt–Cleaining Spray is applied to cleaned and to ensure corrosion protection for the HANG & PANG instruments. The mild alkaline fluid also leaves a very smooth haptic and give a soft touch to the HANG surface.

It cleans sweat, finger prints as well as oily, greasy residues. After applying the fluid dries off and the metal surface is protected against corrosion. The best corrosion protection is given when the HANG and PANG is kept indoors.

### How to apply

---

The fluid has to be applied with the spray gun. 6–7 squirts onto the HANG & PANG–surface have to be distributed with a micro cleaning cloth to clean and to give corrosion protection. Distribute the fluid as long as it dries off and you feel a soft touch of the steel surface.

The corrosion protection depends on how often the HANG or PANG and in which environment it is played or stored. In a dry environment the corrosion protection is over 90 days. A high humidity environment (like near to the shore) the HANG & PANG should be treated after roughly 14 or 28 days.

## Advantages

---

- Easy to apply
- Excellent cleaning effect
- Long corrosion protection (at indoor storage)
- Polishing Effect
- Leaves a „soft haptic“ and gives a smooth touch
- Biodegradable & watersoluble
- No hazardous material
- No propellant (500 ml manual Spray Gun)
- Easy to refill

## Price

---

### Over sea countries and where airfreight has to be done

HANG Cleaning Box                      EUR 22,00  
(500 ml Cleaning Fluid–Cloth: the fluid is soaked in 150 perforated cloth and packed in a box/can for easy use, the box has a re-sealable lid to avoid evaporation of the cleaning fluid)

### In EU (road transport)

Cleaning Spray                      EUR 15,00  
1 ltr. Refill bottle                      EUR 22,00

All prices to be understood incl. packaging, additional freight costs (world wide, excluding CH as PANArt takes care of CH).

**Freight in Germany                      EUR 6,90**  
**Freight in EU world wide (except CH)                      to be requested (depends on country)**
